

Easter themed activities

Some fun Easter themed activities!

When engaging in art activities we encourage the children to be as free and creative as possible—only helping with things like sellotape or if a hot glue gun is needed. The process is much more important than the finished product and talking through how they made their decisions and what techniques/ resources/ methods they used helps them to evaluate what they've made and think about how they might repeat or adapt an activity if they were to repeat it.
