Science: *Rocks and Soils*

We will research and investigate to find out that:

rocks can be man-made or natural

there are different types of rocks, they are formed through different processes and they have different uses

rocks vary in hardness

there are different soil types, soil is formed from rocks and that different rocks form different soils.

We will also find out about the structure of the Earth & a volcano and carry out investigations with an emphasis on fair testing.

Maths:

Counting & properties of numbers

Addition & subtraction

Multiplication & division

Fractions

Data handling

2D and 3D shapes

Times tables

PSHE –

Good to Be Me

Choosing a hobby or sport

Drug Education

What is a drug?
Drugs as medicine
